2019-E-001	<p>Arconic's Suppliers Covered under EHSMS Systems</p> <p>The annual Arconic <i>Supplier Sustainability Questionnaire</i> is used to assess if suppliers have certified their environmental management systems against ISO 14001 and/or Health and Safety management systems against ISO 45001. In 2019, 65% of the suppliers surveyed reported they have a process/policy in place.</p>
2019-E-003	<p>Non-renewable energy consumption reduction plan</p> <p>Arconic's energy goal is a 30% reduction in energy intensity by 2030 from a 2005 baseline for our GRP business unit. This includes energy reduction of consumption of non-renewable and renewable sources. The GRP business unit accounts for 77% of the annual revenue and the most material relation to energy and greenhouse gas.</p> <p>Refer to 2019 Sustainability Report, "Energy" section, page 18 and the C4.1b of the CDP Climate Change Questionnaire. 2019-E-009	<p>See page 33 of the 2019 Arconic Sustainability Report. As of 2019, we have 75% of our major operations, all within the GRP/E business unit certified under the ISO 14001 standard. The GRP/E business unit account for more than 77% of the company's revenue and the most material in relation to environmental, social and governance. Regarding the BCS business unit, we have two of the operations certified under the standards. Operations within the BCS business unit are small and while not certified, follow the company's established environmental management programs. We will continue to secure ISO 14001, ISO 18001, ISO 500001 as requested by customers and regulators.</p>
2019-E-010	<p>Climate-related risks and opportunities scenarios</p> <p>See C3.1b of the 2020 CDP Climate Change Questionnaire. Arconic Corporation as part of Arconic Inc in 2019 conducted a quantitative scenario analysis with multiple internationally recognized scenario models to inform of its long term (2040-2050) business strategy and as a basis of science-based targets. The study utilized the IEA 2 Degree Scenario transition risk pathway and the 2018 IEA Efficient World Scenario to best represent its operation needs and the needs of its customers in the aerospace, transportation and building products market. Filed the 2020 CDP Climate Change Questionnaire on 08/21/2020. This submittal is currently unavailable on the CDP website. 2019-S-004	Arconic Internal Monitoring of Complaints The Chief Legal Officer serves as the Company's Chief Compliance Officer and oversees the Company's Compliance function, including the Integrity Line reporting (our third party managed compliance hotline), and provides regular reports on the number of reports received, the nature of such reports, and the resolution of reports to the Audit Committee and to executive leadership. In 2019, the Company had 246 new reports, for a Report Rate of 2.1 compared to the Navex Benchmark of 1.4. The Report Rate refers to the number of reports received per 100 employees. A higher Report Rate is a positive as it indicates that employees are active participants in the Company's compliance culture. For 2019, the Company had an anonymous rate of 37%, compared to the Navex Benchmark of 59%, and a reconnect rate of 44%, compared to the Navex Benchmark of 36%. The anonymous rate refers to the numbers of reporters who are anonymous vs named. The reconnect rate is the rate an anonymous reporter will check back to see the status of their report or provide additional information. A lower anonymous rate and higher reconnect rate is another positive reflection of the
